PROFESSIONAL SUMMARY

MCA graduate with hands on experience in building full-stack applications using Django, FastAPI, React, and MySQL. Skilled in integrating machine learning models and LLMs into practical systems, including AI based recommendation and decision-support applications. Strong foundation in REST API development, Docker based deployment, and database design, with a focus on clean and scalable architecture.

EDUCATION

- **Master of Computer Applications** 2024 – 2026
Pondicherry Central University, Puducherry
- **Bachelor of Computer Science** 2021 – 2024
MAMO College, Calicut University, Kozhikode
- **Higher Secondary Education (Computer Science)** 2021
St. Joseph's BHSS, Kozhikode 94.16%

PROJECTS

- **SmartWear – AI Smart Wardrobe & Outfit Planner** 2026
Full Stack + AI — FastAPI, MySQL, React, Groq AI (LLaMA)
 - Built an AI powered wardrobe system generating personalized outfit recommendations using LLaMA via Groq API.
 - Designed FastAPI based REST architecture with weather integrated suggestions and analytics dashboard for usage insights.
- **Intelligent Organ Transplant Allocation System** 2026
Full Stack + Machine Learning — Python (Flask/FastAPI), MySQL, Scikit learn
 - Developed a clinical decision-support system for donor-recipient matching with role based workflows.
 - Implemented ML driven urgency prediction and hybrid scoring (FIFO + Priority Queue) for optimized organ allocation.
- **i-Dine – Smart Restaurant Ordering System** 2025
Full Stack — Django, SQL, React, Docker
 - Built a scalable restaurant ordering platform with Django REST APIs for order lifecycle, cart, and admin operations.
 - Implemented real-time tracking and containerized deployment using Docker with responsive React frontend.
- **Hostel Allocation Management System** 2025
Backend-Focused — Django, MySQL
 - Developed role based backend system with JWT authentication for hostel management workflows.
 - Designed optimized allocation algorithms and MySQL schema improving performance and vacancy tracking efficiency.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, C++, Java — **Frontend:** React, HTML, CSS
- **Backend:** Django, FastAPI, Flask, REST APIs, ORM — **Databases:** MySQL, PostgreSQL, MongoDB
- **AI/ML & Tools:** LLaMA, Groq API, Scikit-learn, RAG, Docker, Git, GitHub

CERTIFICATIONS

- NPTEL – Data Analytics with Python IIT Roorkee
- NPTEL – Joy of Computing Using Python IIT Madras
- IIRS – Overview of GIS ISRO

LANGUAGES

- **English:** Fluent | **Malayalam:** Fluent | **Hindi:** Intermediate | **Tamil:** Basic
